

## NATURAL HEALING AND WELLBEING CENTER in TUZLA, İÇMELER

**HEALING** is a process of a regeneration of a health problem. According to common view, **NATURAL HEALING** a biological process that is focusing on regeneration of the body by using only natural tools, therapies, foods, and ingredients . **WELLBEING** is the holistic condition of a humanbeing according to different notions like physical, mental, phycological, economical and social. There is a current interest to the natural versions of everything in relation with human body.

Students will be asked to discuss such concepts in relation with body, spirit and space and propose spatial concepts to interpret these facts.

**PROJECT SITE** is in **Tuzla, İçmeler** housing several thermal resorts and the largest shipyards of the country.

**PROGRAM** will be including mainly; Accomodation, Physiotherapy, Sports and Fitness Facilities beside Healing and Wellbeing Zones.
